Our South Florida Offices

Located on Brickell Avenue in downtown Miami, the firm maintains offices in one of the most vibrant business and investment centers in the United States. South Florida serves as an ever-important center for capital investment financing emanating from money centers in Europe, South America and Asia.

Having invested 27 years developing legal, financial and professional relationships in South Florida -- to include relationships developed while handling numerous legal engagements in burgeoning Broward and Palm Beach Counties -- Sullivan PLLC's Founder and Principal, Allan Sullivan, determined to maintain an operating presence in South Florida when launching the Firm.

Much of the Firm's compliance, forensic and white collar experience and resource base is drawn from prior local, national and global representations developed from within the South Florida market. Several of the Firm's important collaboration partners, to include the national CPA, public audit and forensic services firm – [maughansullivanllc](#) – also maintain their presence in this important market.

Allan and his wife, Linda Joy Sullivan, keep a residence in Palm Beach County. Both enjoy strong professional and civic reputations in South Florida. Allan served in important public positions with the Department of Justice in Miami and was for over a decade a partner at the Miami offices of the global firm Baker & McKenzie LLP. Linda Joy founded [maughansullivanllc](#) in Palm Beach County in the 1990s before establishing from Miami a national anti-human trafficking 501(c)(3) that has to date served over 3000 young trafficking victims.
